

Leverage on data to reduce and recover costs.

"I need to reduce cost through enhanced print governance."

"Hidden and unnecessary costs gone unnoticed will impact our profitability."

A

Company A reduces their document related cost with Fuji Xerox solutions.

Document usage tracking and management by user and department allowed them to be more cost efficient.

They save on consumables by digitising documents.

B

Company B wastes money due to the uncontrolled office equipments and uncovered document usages.

The company is enjoying more efficient print environment after removing the devices with low usage and optimizing the allocation of print devices.
